

VOLUNTEER EMILY

STARTED VOLUNTEERING: 2013

CAMP KOREY IMPACT: As a volunteer, I found joy in helping others and decided to dedicate my life to medically impacting others' lives as a physician's assistant.

LEARNING FROM CAMP: My Camp Korey experience taught me it's important to provide joy anywhere you can throughout life. That's one thing I hope to take from camp into my practice as a PA - to provide joy throughout work with patients and patient care.
